Good morning Greg,

Unfortunately, the Financial Responsibility Cost Estimation Tool is not for external distribution. The tool is intended for permitting authorities only to generate a government estimated cost range to assess the adequacy of an applicant's cost estimate.

Best regards,

Dan

I received an auto-reply from Molly to direct questions to Daniel and Sharon while she is out of the office. See original message below. Thank you, Greg

David/Calvin/Molly and Bruce:

You may recall we spoke last fall regarding the San Joaquin Renewables GS Project. We are currently finalizing the permit application materials and thought it would be a good idea to touch base with you to ask some clarifying questions. Do you have availability in the next few weeks for a virtual meeting?

Also, would you be able to send me a copy of the "Financial Responsibility Cost Estimation Tool?". I've put in a request to register at the GSDT where I believe I can get access to the Cost Estimation tool, but it would be a help if you can send us that in the meantime if it's easy. Thank you, Greg
